Station Mangalore. , *Dated the* 3rd November 1934

From (Name) M.R.Ry A.B.Shetty Avergal, M.L.C.,
(Designation) President, District Board, S.Kanara.

To The Secretary to the Government of Madras,
Local Self Government (Piblic Heal Department.

Sir, page 3 supra

In enclosing a copy of paragraph 6 of the Audit report on the General Fund Accounts of the late Coondapur Taluk Board for the year 1932-33, I have the honour to state that though the well curb for the well at Gulvadi was laid in May 1928 and steining to a certain height was done by the contractor by the middle of June 1928, as stated in the Audit report, the work could not be proceeded with after the middle of June 1928 as the rains had commenced as usual in this district. I understand that during the rainy season from the middle of

P.T.O.

June 1928 to September 1928, the earth from all sides in the well pit slipped in and the steining work done previously became invisible. As this could not be avoided, a sum of Rs 24-0-0 had to be spent by the late Coondapur Taluk Board in removing the slipped earth.

2. I request, therefore that the Government may be pleased to accord sanction as a special case, for the half grant of Rs 12/- drawn on the expenditure referred to above.

Your most obedient servant,

President.

Extract from the Audit report on the General Fund Accounts of the Coondapur Taluk Board, South Kanara District for the year 1932-33.

Avoidable expenditure.

6. An estimate for Rs 850/- was sanctioned by the Taluk Board in resolution No. 377 dated the 22nd March 1928, for constructing a well in Gulvadi village near the ferry and an expenditure of Rs 197/- was incurred by the end of March 1928 on the purchase of laterite stones cut and dressed. It was, however, seen from the work file that though the well curb was laid in May 1928 and steining to a certain height was done by the contractor by the middle of June, 1928, the work was not proceeded with till September '31 for want of funds. Meanwhile a revised estimate for Rs 1240/ was sanctioned for this work by the Taluk Board in resolution No. 22 dated the 27th May 1929 due to change of site and the work resumed about October 1931 after a period of three years. During this period the earth from all sides in the well pit dug three years back had slipped in and the steining work done previously become invisible. Consequently a sum of Rs 24/- had to be spent in removing the slipped earth(7,605 c.ft at Rs 3-200 per unit.). As this expenditure could have been avoided if the work had been proceeded with, without being stopped, the half grant drawn on.this amount, viz. Rs 12/- is held to be inadmissible in the absence of special sanction of Government.
